

## PSF Series

The PSF Series (PSF-16 and PSF-24) offers targeted, high-level UV disinfection for smaller indoor spaces, including those with no HVAC in place.

The compact, upper room units are easily wall-mounted to provide continuous air disinfection in a contained device. The PSF-16 is designed for rooms less than 250 sq. ft. and features one integrated fan to create powerful airflow, while the PSF-24 can take on rooms up to 400 sq. ft. with two fans.

**Aerapy UV kills >99.9% of tested virus and bacterial pathogens, including SARS-CoV-2**

### Effective

Kills over 99.9% of bacterial and virus pathogens in one air pass

### Powerful

Delivers hourly full air exchange in a typical K-12 classroom

### Safe

PSF series is chemical free and produces no harmful ozone

## Features

- Meets CDC guidelines
- Designed for 200-400 square foot rooms
- Fans at both ends of unit to create powerful airflow
- Manufactured in the USA
- Wall mounted
- Non-corrosive Aluminium construction
- 5 year warranty
- Dimensions 5 x 7 x 16 inches, Weight 7 lbs
