

## ChargeMax - Tablet

Reduce infection risk with shared tablets with our ChargeMax UV-C disinfection cabinets.

ChargeMax's UV-C lights kill any bacteria or viruses on the surface of tablets placed inside its compartments. Available in a range of sizes, ChargeMax is secured with a sturdy Push-to-Close lock on the front door and triangular lock on the side door, both with keys. The interlocked door prevents UV-C light emission when the unit is in use.

A digital programmable timer allows for setting the start, stop and duration time for disinfection and charging. ChargeMax is safe and durable, with a transparent door for monitoring, and four sturdy wheels with front brakes for easy moving.

Deploy ChargeMax in your IT department ensuring all shared tablets are disinfected at regular intervals.

### Safe

Safety switch turns off UV-C light when the front door is opened

### Effective

254nm UV light kills bacteria and viruses on laptop or tablet surface

### Programmable

Digital timer controls charging and disinfection time

## Features

- Available in a range of sizes - 10 to 65 devices
- Built-in USB charging system
- Filtering transparent door
- Programmable timer
- 254nm UV-C frequency
- Safety switch and user friendly design
- Smart fan delivers power and heat protection
- 1 year warranty
